

Your MVP, Ready in Just 4 Weeks

DICE SOLUTIONS

Launch MVPs, SaaS & AI Products - Fast!

www.dicesolutions.studio

AFFORDABLE | SCALABLE | RELIABLE

WHO ARE WE?

We're not just another dev shop - we're entrepreneurs at heart.

We've built, scaled, and shipped products ourselves, so we understand the speed, precision, and grit it takes to go from 0 to 1 - and then scale beyond. That experience shapes everything we do.

Built by Founders, for Founders

- Built and scaled our own products, including SaaS tools like Monitorly
- Approach every project with a founder's mindset — fast, lean, and scalable
- Deliver purpose-driven MVPs, SaaS platforms, and AI tools that work

Our mindset is simple:

- Move fast, but build with intent Avoid
- bloated code and endless meetings
- Deliver value early and often

We created Dice Solutions to bring this energy to other founders who want to move fast, validate ideas, and scale confidently.

Why Most MVPs **Fail** ?

- Too slow to launch
- Burn cash before validation
- Overbuilt with no real user feedback

What We Do **Instead** !

At Dice Solutions, we flip the script.

We build lean, focused MVPs that:

- Launch in weeks, not months
- Help you test fast and spend smart
- Focus on what users actually need - nothing more, nothing less

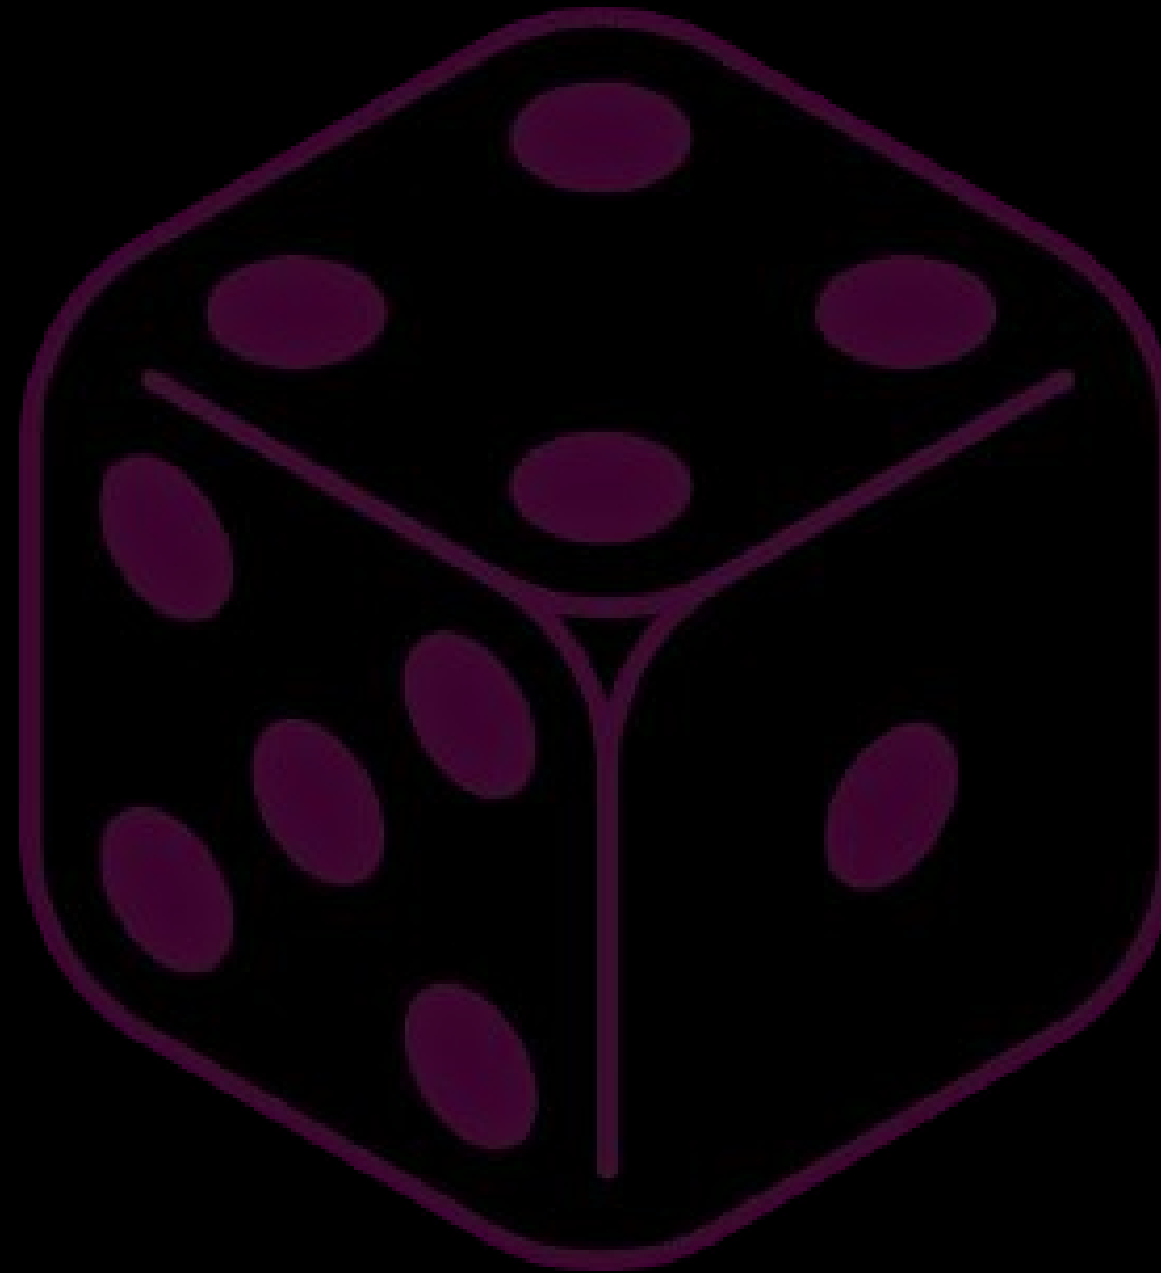

Our 4-Week MVP Framework

WEEK 1
Discovery & Planning

WEEK 3
Integration & Testing

WEEK 2
Design & Core Build

WEEK 4
Launch & Feedback Loop

Real Tools | Real Tech | Real Fast!

- Every project is unique - we tailor our tech stack to your goals, not the other way around
- From Jamstack for speed, to microservices for scalability, to monoliths for simplicity - we use what fits
- Whether it's serverless architecture, custom APIs, or low-latency UIs, we make choices that serve your product, your users, and your future roadmap
- No tech bias - just a pragmatic, product-first approach that gets you to market faster and scales with confidence

PLANS

Kickstart

- UI mockups
- Technical feasibility
- Roadmap

Startup MVP

- Frontend + backend
- Auth & user roles
- Admin panels
- API integrations

Pro Scale

- Scalable architecture
- CI/CD pipelines
- Custom APIs
- AI-powered features

You've Got **the Idea ?** **We've Got the Team to Build It !**

Whether you're a solo founder, a startup team, or a growing business,
We help you ship smarter - not slower !

At Dice Solutions, we bring:

A founder's mindset - we build like it's our own

A lean, full-stack team - ready to move fast

A proven, feedback-first process - designed to test, learn, and scale

Let's turn your vision into something real - and launch-ready.

Let's Build Together !

Extras Included with Every Build

- 98% client satisfaction
- 50+ MVPs launched successfully
- 24/7 support during the build phase
- Clear, fixed pricing — no surprises
- Weekly progress updates
- 30 days of post-launch support
- EMI options available

DICE SOLUTIONS

Speed. Simplicity. Scale.
